

## **Instructions Page – Program Detail – Basic Program**

Basic Program components are required under Title I, Part D, Subpart 2. In designing an effective program to meet the needs of delinquent students, districts should construct a high-quality program which allows students to meet the same rigorous standards required of all Montana students, and one that prepares them to become college and career ready upon graduation.

All text boxes must have an answer. Please complete questions with as much detail as possible.

1. Please give a detailed description of the types of facilities where the LEA will provide services.
2. Describe formal agreements between the LEA and facilities where delinquent children will be served. Copies of formal agreements must be kept on file in the district office and provided to the OPI during state and federal monitoring.
3. Describe the LEA's efforts to coordinate educational programs with the facilities served.
4. Describe the LEA's overall Title I program components used to meet the needs of at-risk youth, including youth served in facilities.
5. Please describe in detail the unique needs of children and youth served in the facilities and other at-risk youth served by the district through the Title I, Part D, program.
6. Please describe how the LEA's special education program works with facilities to ensure that youth are properly identified and served.
7. Please describe any alternative educational options that are available to at-risk youth. You may include the Montana Digital Academy, alternative schools/programs, or other school-based programs that meet the needs of at-risk youth who are not able to participate in the regular educational program offered by the LEA.

When all text boxes are completed, please click the SAVE PAGE button at the bottom of the page.
